

## MOTORIZED HOUSEKEEPING CART FEATURES

Maintenance free Transaxle  
Electronic parking brake  
Battery discharge meter  
Key switch lock out  
Onboard battery charger. Can be charged with any outlet. Charging cord included  
Non Marking caster and drive wheels  
Maintenance free lithium ion battery  
variable speed control on both forward and reverse  
Increases worker safety and reduces the risk of injury.

### K2 Battery Charger

Short Circuit Protection  
Over Current Protection  
Charging LED indicator light  
Output voltage 29 DC volts  
Output load 2.0 amps  
Safety Rating CE / UL / FCC / RoHS / ASA / TUV / PSE

### K2 Battery

Amp hours 11.25 each (battery capacity)  
Operating voltage 25.6 DC volts  
Short circuit protection  
High and Low voltage cutoff  
Batteries ship at 30% capacity to be approved for air shipment  
1 year manufacturing warranty covering defective workmanship and materials  
Prorated warranty period of 60 months. 100% covered for 24 months  
UNDOT 38.3 Tested, RoHS Compliant, UL 2054 Certified , EC 62133 Certified

### Transaxle

24 DC volt Brushless motor  
200 watt motor capable of moving 900#  
Custom motor made for cart. Similar to the standard ASI  
Electronic braking system is engaged when the throttle is released  
Limited one year warranty defective workmanship and materials  
REACH and RoHS compliance

### Phoenix Motor Control

Model P125  
Reverse Battery Protection  
BLDC Stall Detection  
Throttle Fault Detection  
Low/High Voltage Shutdown  
Compliance with UL 583 & UL 60335-2-72  
Flammability Rating UL94V-0
